FACTSHEET

Records of medals at the Games of the Olympiad

06 June 2025

Olympic medals

From 1896 in Athens to 1928 in Amsterdam, the medals ceremony traditionally took place during the Closing Ceremony of the Games. From 1932 in Los Angeles, the medals were awarded after each competition. The medals must have a minimum diameter of 70mm and be 3mm thick. The medal for the first place must be gilded with at least 6g of pure gold. The names of the medal winners shall be featured prominently and be on permanent display in the main stadium.

Youngest known medallist

On 26 August 1900, the Dutch coxed pairs rowing team needed a cox. A young French boy was chosen. After the tight victory of the Dutch team, the young French boy took part in the medal ceremony and was photographed. Despite years of research by many historians, we still do not know his name or his age. Judging by the photo, this young boy is between 7 and 12. If he is nearer 12, the youngest medallist is thus the Greek gymnast Dimitrios LOUNDRAS who, when he finished third in the team parallels bars at the 1896 Olympic Games, was 10 years and 218 days old. Over three decades later, Italian Luigina GIAVOTTI won the silver medal in the team gymnastics event in 1928. She was 11 years and 302 days old.
