HOSTING THE OLYMPIC AND PARALYMPIC GAMES: CREATING A SUSTAINABLE VENUE MASTERPLAN

When selecting venues for their Games plan, for reasons of sustainability and legacy, potential hosts must:

**ENSURE**
- maximum use of existing venues.

**LEGACY-PLAN**
- for any new construction. If there is no proven legacy value for permanent construction, hosts are encouraged to use temporary/demountable venues.

**CONSIDER**
- using existing venues outside the main host city, region or even country.

**EXPLORE**
- sharing opportunities across disciplines to avoid building new venues.

**USE**
- only existing mono-functional venues (ski jumping, sliding sports and speed skating) for Olympic Winter Games.
