IOC GUIDELINES ON ACCESS AND USE OF AUDIO-VISUAL MATERIAL BY INTERNATIONAL FEDERATIONS
APPLICABLE TO:
GAMES OF THE XXXII OLYMPIAD TOKYO 2020
AND OLYMPIC ARCHIVE FOOTAGE

I. INTRODUCTION

The IFs representing the sports included in the programme of the Games of the XXXII Olympiad Tokyo 2020 (“Tokyo 2020”) may only benefit from the access granted and use permitted pursuant to these Guidelines on condition that the terms and conditions set out herein are completely accepted and complied with by them, in conjunction with any additional specific terms the International Olympic Committee (“IOC”) may put in place for the access and use of the Tokyo 2020 Footage. For the avoidance of doubt, these guidelines apply only to the concerned IF and not to its employees acting in an individual capacity, agents, affiliates, representatives or any third party whatsoever, including national federations.

These Guidelines supersede and replace any and all previous authorisations granted by the IOC to an IF. The application of these Guidelines is without prejudice to the compliance by IFs with the Olympic Charter and any other rules applicable to the Tokyo 2020.

These Guidelines aim at:
(i) making available to IFs Tokyo 2020 Footage;
(ii) establishing IFs’ rights for the use of Tokyo 2020 Footage and Olympic Archive Footage;
(iii) minimising the number of filming crews and accredited persons within the Sports Venues in order to allow for the smooth running of the sports competitions;
(iv) To protect and preserve the rights acquired by the RHBs.

II. CONSIDERATIONS DURING GAMES-TIME

1. Filming within Sports Venues

Only professional cameras and crews of OBS and a limited number of RHBs (producing unilateral feeds) are allowed in the Sports Venues (for both competition and training sessions). Any other (non-professional) filming within Sports Venues is strictly limited to the Ticketing Terms, or the OIAC terms (which includes the respect of the IOC Social Media Guidelines, applicable to individuals when acting in a private capacity).

Notwithstanding the above, IFs may request to OBS, reasonably in advance of Tokyo 2020, to be exceptionally allowed to film, with non-professional equipment, from IF stands by IF staff or authorised personnel for the IF’s internal purposes, such as judging, refereeing and performance assessment, only. For the avoidance of doubt, IFs may not broadcast nor make available over the internet or by any other means, any moving images and/or sounds that are recorded by the IF or any third-party within the Sports Venues, including from the Mixed Zones. OBS shall consider any such requests at its sole discretion, including any other requests for filming, with non-professional equipment, within the Sports Venues.

2. Access and use of Tokyo 2020 competition footage per request to the OCOG

Copies of Tokyo 2020 competition footage to be made to aid officiating via refereed/judge review sessions or for distribution to national teams for their review. The use of any Tokyo 2020 competition footage is limited to the IF’s and national teams’ internal purposes, such as judging, refereeing and performance assessment, only. No Tokyo 2020 competition footage may be broadcast or made available over the internet or by any other means.

As a result of the exceptional COVID-19 pandemic-related measures that limit the movements of the athletes and their interaction with individuals outside of the Olympic Venues for safety purposes, the access to athletes has been significantly restricted. IFs (without any filming equipment and subject to COVID-19 restrictions), are authorised to access the post-competition press conferences of their sport organised by the OCOG after each Olympic medal event, taking place at a particular Olympic Venue (“Sports Venues Press Conferences”). On an exceptional and non-precedential basis for Tokyo 2020 and as an exception to Chapter II, Paragraph 2 of these Guidelines, the recordings of the Sports Venues Press Conferences shall be made available for download on INFO. IFs may use an aggregate maximum of five (5) minutes in total per day across all platforms (with a maximum length of one minute per clip) of Sports Venues Press Conferences of their sport from the conclusion of the applicable press conference for their editorial or institutional/non-commercial activities only on their own and operated official websites and social media pages.

The details (date, time, name of athletes, etc.) of each organised Sport Venue Press Conference session and the available recordings will be provided in INFO. Should access to a press conference session be limited, priority shall be given to RHBs.

3. Access to Athletes

IFs SHALL NOT BROADCAST OR MAKE AVAILABLE ANY MOVING IMAGES AND/OR SOUNDS RECORDED WITHIN THE OLYMPIC ARCHIVE FOOTAGE INCLUDING ADVERTISING OR BROADCAST SPONSORSHIP

Such access is subject to any applicable technical costs and the corresponding license request and approval (and any IOC applicable terms and conditions), and IFs are responsible for any clearances and/or consent that may be required in connection with such use (i.e. image rights, music rights, etc.).

The use of Olympic Archive Footage shall be solely for editorial/non-commercial or educational purposes aimed at promoting the IF’s respective sport. Any distribution shall not be commercialised as a revenue-generating opportunity (not-for-profit and limited to recovering costs) and must be distributed only within the IF’s members/affiliates (i.e. coaches and sports clubs of their corresponding sport) and shall not be used in any manner that could create a direct or indirect association with any third party, its products or services (including by an IF’s commercial partners or service providers).
